DETAILED ACTION

Allowable Subject Matter

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 3, 8-9 and 10-11, the references of the prior art of record fails to teach or suggest the combination of the limitations of: firing the flash lamp when the power supply voltage signal is less than the flash lamp self extinguishing voltage and at a time such that the flash lamp de-ionizes while the power supply voltage signal remains below the self extinguishing voltage, specially comprising the limitation the method of interrupting the current flow to the electrical device before the voltage across the energy storage means falls below a second predetermined value, and the method of firing the flash lamp when the power supply voltage is at substantially zero volts.

Regarding claims 2, 4-7 and 12-13 are allowable for the reasons given in the claims because of dependency status from the claims 1, 3 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
